

SAMARTH H D ROTOR

FEATURES

- ◆ Three number helical screw flights 20/25 mm thick casted in Stainless Steel with flight profiles accurately maintained.
- ◆ Cast cum fabricated Rotors in Stainless Steel.
- ◆ Low Power consumption hence faster pay back.
- ◆ Proven results with cast cum fabricated Rotor.
- ◆ Working edges duly hard faced for resistance against wear & ensures longer life of rotor.
- ◆ Dynamically balanced.
- ◆ Operating consistency at 15 – 18 % consistency.
- ◆ Due to flight profiles and uniform slushing the plastics and other contaminants remain uncut and easily separated.
- ◆ Easy installation.
